STANDARD 100 by OEKO-TEX

The international OEKO-TEX standard checks, guarantees and certifies every level of manufacture: raw materials, semi-finished goods, accessories and finished products in the textile sector.

Marlane can offer a selection of certified products as they have been made at a plant, part of the Marzotto group, which has obtained the OEKO-TEX certification.

More than 90% of Marzotto Group products are certified STANDARD 100 by OEKO-TEX.
